

ADRIAN COLLEGE

December 16, 2009

To whom it may concern:

I would like to recognize Pro Grass for the outstanding work they demonstrated in the construction of two athletic fields for Adrian College. Our first field installed was the multipurpose (football, soccer, lacrosse, etc.) approximately four years ago. Two years later, Pro Grass was hired to come back to Adrian College and install our baseball field.

Pro Grass's most striking quality is their attention to detail. They explain every step of the process with great detail, ensuring that the customer understands exactly what they are receiving. As with any construction project, from time to time an issue/problem may arise. Pro Grass understands when a problem occurs that it is very important that it gets fixed quickly and correctly without any additional burden to their client.

Pro Grass still makes follow up calls ensuring that Adrian College is performing the required maintenance on the fields. This is something that is not required of Pro Grass but is greatly appreciated.

If you would like to see the quality work at our facilities please contact me. We are very pleased with the Pro Grass product and recommend their services to those interested in installing synthetic turf at their facilities.

Sincerely,

Michael Duffy
Athletic Director
