

ProGrass™

Rhino Synthetic Golf Putting Greens and Complete Golf Hole Systems

ProGrass a leader in the Synthetic Athletic Field Industry now offers a line of Premium Rhino Synthetic Golf Putting Greens and complete Golf Holes Systems, including Tee areas, fairway landing areas and sand traps.

Our golf holes are comprised of specially designed turf for the putting surface, aprons, and fairway landing areas.

All of the Rhino Golf materials are of top quality and carry the unsurpassed ProGrass Warranty.

Each installation is custom designed, individually engineered and centered on the customer's requirements and complete satisfaction. Our extensive experience with synthetic turf systems allows us to design from the ground up, meaning a golf hole with proper drainage, smooth transition into the natural grass surroundings and outstanding quality.

Only approved ProGrass technicians are used for the design and installation assuring complete customer satisfaction.
